WEATHERPROOF BOOT

1471 SERIES

- A flexible neoprene rubber boot especially designed for moisture proofing wire connections on the 1015 or the 1016 series head.
- The boot fits tightly around the base of the head, and 1/8" to 3/16" tapered hole seals a variety of leadwire diameters. In pairs, the boot also can be used to moisture-proof combinations. Supplied in pairs

Example: 1471
